YEL

3D mesh

Three-dimensional produced distance mesh to provide increased moisture and temperature management.

SJ Foam

Removable comfortable antistatic footbed providing fit, guidance and optimum shock absorption in heel and forefoot. Breathable and moisture absorbing.

Breathable upper

Increased moisture and temperature management for extended wearer comfort.

Rubber outsole

Rubber outsoles provide versatile functions that make them suitable for many areas of application: excellent cut resistance, heat and cold resistance, high flexibility at cold temperatures, resistance against oil, fuel and many chemicals.

Waterproof lining

Keeps your feet dry and comfortable in wet environments.

Heel energy absorption

Heel energy absorption reduces the impact of jumps or running on the body of the wearer.

Environments:

Muddy environment, Wet environment, Dry environment, Uneven surfaces

Maintenance instructions:

To extend the life of your shoes, we recommend to clean them regularly and to protect them with adequate products. Do not dry your shoes on a radiator, nor nearby a heat source.
